(w) 140mm x (h) 120mm x (d) 30mm

(w) 160mm x (h) 140mm x (d) 30mm

(w) 180mm x (h) 160mm x (d) 30mm

## Material/s

**Base:** Moso® Bamboo material only comes from licensed managed forests, is harvested every 5 years and made in a factory that is ISO 9001 quality and ISO 14001 environmental third party certified. It complies with the most stringent international material standards. Moso® bamboo combines all of the virtues of hardwoods with the immense growing capacity of the highly renewable giant Moso® bamboo species acting as a green carbon negative alternative material where no additional water or pesticides are needed. Bamboo material simply biodegrades at end of life.

**Front:** Greencast® acrylic is produced from 100% recycled acrylic and is 100% recyclable at the end of its useful life if disposed of correctly, creating a full circular economy for the prevention of acrylic plastic waste ending up in landfill. Greencast® acrylic uses a proprietary process for the recovery of the original solvent (PMMA) for the production of new acrylic which can, in turn, be recycled countless times without ever losing its virgin quality. All our Greencast® acrylic factory waste is recycled for zero landfill production.

*\*nb. Bamboo products may vary to that shown. Being a completely natural material, it varies in colour, blemishes, grain and other inconsistencies - it adds greatly to the individuality of each order.*
