Material/s

Greencast® acrylic is produced from 100% recycled acrylic and is 100% recyclable at the end of its useful life if disposed of correctly, creating a full circular economy for the prevention of acrylic plastic waste ending up in landfill. Greencast® acrylic uses a proprietary process for the recovery of the original solvent (PMMA) for the production of new acrylic which can, in turn, be recycled countless times without ever losing its virgin quality. All our Greencast® acrylic factory waste is recycled for zero landfill production.

Size/s

(w) 167mm x (h) 160mm x (d) 25mm

base: (w) 120mm x (h) 45mm x (d) 10mm
