

Real Wood Framed Name Badges

product specifications

Details

- Solid oak bases with an aluminium top plate in a wide choice of metal finishes (see above)
- Manufactured in the UK from sustainable wood supplies
- High quality full colour digital print
- Hand finished in satin wood oil
- Standard badge fittings are bar pin or metal clip and pin
- Minimum order quantity of just 10 badges
- Shipped in plastic free eco packaging

Size/s

78mm x 49mm, 78mm x 40mm, 78mm x 24mm

Fitting/s

Bar pin,
Black or White
(Standard fitting)

Metal clip and pin
(Standard fitting)

Name badge magnet
(Available at additional
cost)

Material/s

Frame: Wood is inherently renewable and sustainable when properly sourced and managed and we only use wood from suppliers with proven supply chain certification to international standards. As a natural organic material, wood has a lighter carbon footprint than almost all synthetic materials. All wood types simply biodegrade at end of life. Production waste is used in agriculture and for home heating due to its incredibly low moisture content.

Oak: is light to medium brown in colour. Engraving produces a distinctive 'burnt' effect quite different to other wood types but with a good level of contrast.

All wood types have good ink adhesion, digitally print well, with good colour accuracy.

Metal plate: Aluminium is one of the most sustainable materials around. Recycling aluminium is widely done and saves about 90% of the energy it takes to make new aluminium, also reducing the mining of the bauxite ore needed. Due to its wide and varied applications, the commercial and domestic recycling infrastructure of aluminium is continually growing and all our aluminium production waste is sold for recycling, the proceeds of which are used to plant trees with Ecologi. Recycling of aluminium varies widely in the UK with plenty of local council metal recycling centres.

**nb. Wood products may vary to that shown. Being a completely natural material, it varies in colour, blemishes, grain and other inconsistencies*
