- Bespoke shapes/sizes and a choice of wood types also possible, including maple, cherry and walnut woods
- No minimum order quantity
- Shipped in plastics free packaging

Size/s

91mm x 94mm x 28mm

Material/s

Tealight Holders: Wood is inherently renewable and sustainable when properly sourced and managed and we only use wood from suppliers with proven supply chain certification to international standards. As a natural organic material, wood has a lighter carbon footprint than almost all synthetic materials. All wood types simply biodegrade at end of life. Production waste is used in agriculture and for home heating due to its incredibly low moisture content.

Oak is light to medium brown in colour. Engraving produces a distinctive 'burnt' effect quite different to other wood types but with a good level of contrast. All wood types have good ink adhesion, digitally print well, with good colour accuracy.

**nb. Wood products may vary to that shown. Natural inconsistencies occur in wood (colour, blemishes, grain) which add greatly to the individuality of each order.*
