

Real Wood Coasters - Standard Shapes

product specifications

Details

- Quality 9mm thick solid oak coasters, made in the UK from sustainably sourced wood supplies
- Choice of 92mm square or round shapes (Larger sizes possible at additional cost)
- Laser engrave or full colour print to the top surface only
- Hand finished with satin wood oil and wax
- Cork base
- Minimum order quantity of just 25

Size/s

(d) 92mm x (h) 9mm

**nb.* Wood products may vary to that shown. Natural inconsistencies occur in wood (colour, blemishes, grain) which add greatly to the individuality of each order.

Material/s

Coasters: Wood is inherently renewable and sustainable when properly sourced and managed and we only use wood from suppliers with proven supply chain certification to international standards. As a natural organic material, wood has a lighter carbon footprint than almost all synthetic materials. All wood types simply biodegrade at end of life. Production waste is used in agriculture and for home heating due to its incredibly low moisture content.

Oak is light to medium brown in colour. Engraving produces a distinctive 'burnt' effect quite different to other wood types but with a good level of contrast. All wood types have good ink adhesion, digitally print well, with good colour accuracy.

Base: cork is a 100% eco. Renewable, recyclable and biodegradable, it is naturally harvested from tree bark without the need for cutting down the whole tree. It is also waterproof, buoyant, flexible and fire resistant making it an ideal base for coasters.
